Environmental Policy Statement

Neuro Systems Ltd is committed to reducing the impact of its activities on the environment. We have an obligation towards the community and our employees, to provide services and products in such a way as to minimise our environmental impact, and to strive for continuous improvement in our environmental performance.

In order to meet this commitment the company will pursue the following objectives:

- To ensure compliance with all applicable environmental legislation, regulations and codes of practice relevant to our business.
- To reduce emissions and prevent pollution
- To improve waste management practices - we seek to reduce waste through efficient use of resources and effective management systems.
- To reduce consumption of natural resources.
- To minimise noise and other nuisances
- To assist in the investigation of environmental incidents in which it is involved on operational sites.

In addition the company will continue to raise the levels of environmental awareness throughout its workforce and to promote this awareness amongst its stakeholders.

We will communicate openly our environmental policy, plans and performance, where this does not infringe on commercial interests.

Employees (direct or indirect) have a duty to co-operate in this objective:-

- a) By working safely and efficiently and in an environmentally friendly manner.
- b) By using any specific equipment provided and by meeting statutory objectives
- c) By adhering to company procedures.
- d) By reporting or communicating any incidents and ideas that will assist the company to initiate further improvements to its policies and working practices.

The implementation of this policy is the responsibility of line management, with environmental issues and performance subject to periodic review (annually or as changes in circumstances dictate).
